E-prints in Library and Information Science

eprints.rclis.org — rclis — research in computing, library and information science — CILEA — AePIC Soluzioni avanzate per l'editoria elettronica

A technology overview of a complex migration from Eprints 2 to Eprints 3

Purge Inbox buffer

```
mysql> select count(*) from inbox;
+----------+
| count(*) |
+----------+
|     1980 |
+----------+

mysql> select count(*) from inbox where abstract IS NULL
and  title IS NULL and eprintid < '11500';
+----------+
| count(*) |
+----------+
|     1064 |
+----------+
```

The buffer is purged with a script. The script is available on request.

Browsing and non Latin-1 chars

To support better the non Latin-1 chars in the views pages, we have comment 10 lines in the routine Util::escape_filename. The hack in EP3 is the same of EP2

Changes on metadata

In EP2 the field 'abstract' is only one, in EP3 installation we have two fields, one not repeatable and called 'abstract' and a second called 'otherabstract'. The web page of the paper is now written directly.

Revistas de acceso abierto en biblioteconomía y documentación = Revistes d'accés obert en biblioteconomia i documentació

Atenas Rivera, Javiera (2005) Revistas de acceso abierto en biblioteconomía y documentación = Revistes d'accés obert en biblioteconomia i documentació. BiD : textos universitaris de biblioteconomia i documentació(15).

Abstract

[Spanish Abstract]

Se presenta un directorio de las revistas de acceso abierto (open access) en biblioteconomía y documentación más destacadas por calidad de los contenidos y por el prestigio de las instituciones que las editan.
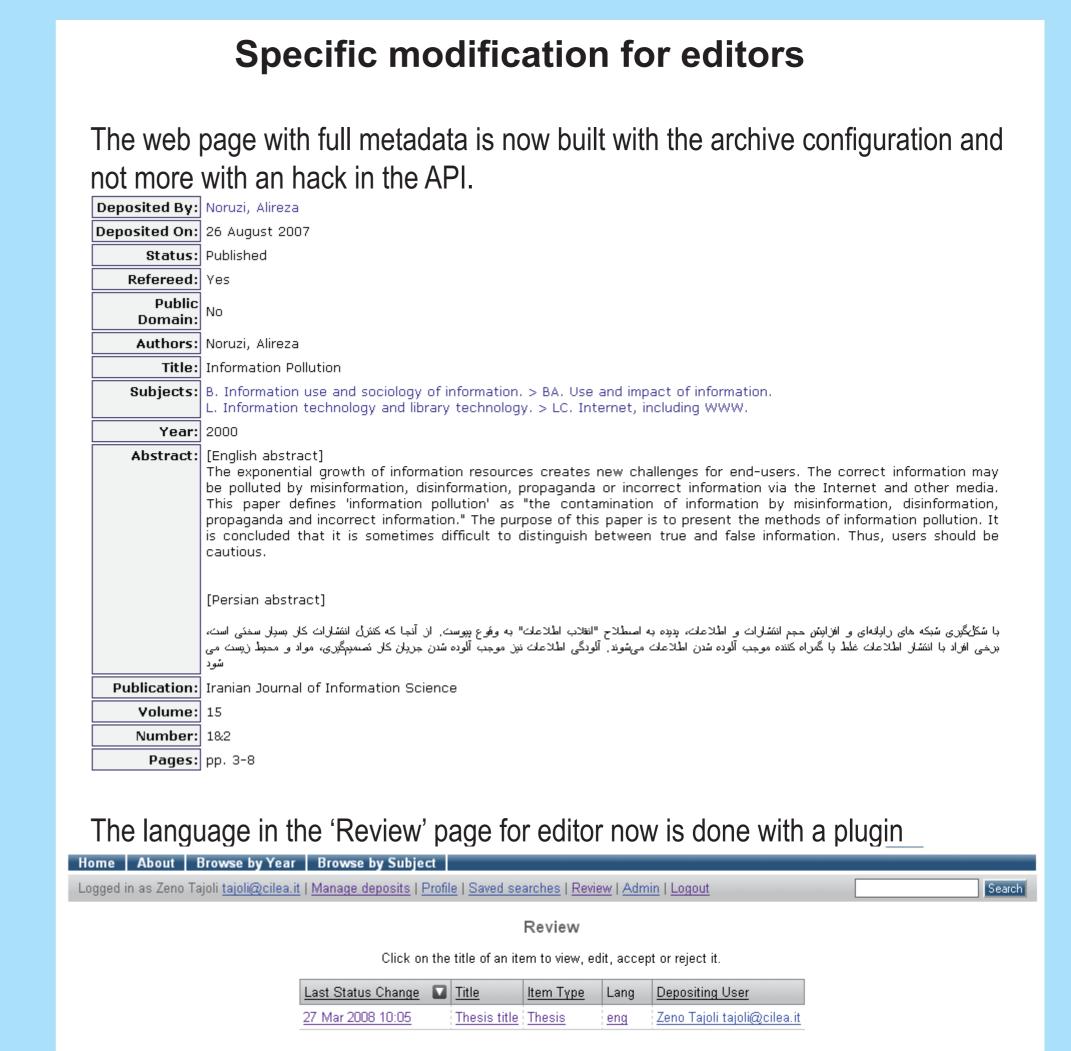

[English Abstract]

This article presents a directory of the most outstanding open access journals in the field of library and information science, whose selection is based on the quality of the contents and the prestige of the issuing institutions.

[Catalan Abstract]

Es presenta un directori de les revistes d'accés obert (open access) en biblioteconomia i documentació més destacades per la qualitat dels continguts i pel prestigi de les institucions que les editen.

Alerts improved

In EP2 we added abstracts into alerts and we inserted an alerts to the uploader if the paper is approved. We plan to manage those functions with plugins

Specific modification for editors

The web page with full metadata is now built with the archive configuration and not more with an hack in the API.

Title:	Information Pollution
Subjects:	B. Information use and sociology of information. > BA. Use and impact of information. L. Information technology and library technology. > LC. Internet, including WWW.
Year:	2000
Abstract:	[English abstract] The exponential growth of information resources creates new challenges for end-users. The correct information may be polluted by misinformation, disinformation, propaganda or incorrect information via the Internet and other media. This paper defines 'information pollution' as "the contamination of information by misinformation, disinformation, propaganda and incorrect information." The purpose of this paper is to present the methods of information pollution. It is concluded that it is sometimes difficult to distinguish between true and false information. Thus, users should be cautious. [Persian abstract] با شکل‌گیری شبکه های رایانه‌ای و افزایش حجم انتشارات و اطلاعات، پدیده به اصطلاح "اطلاعات آلاینده" به وقوع پیوست. از آنجا که کنترل انتشارات کار بسیار سختی است، برخی افراد با انتشار اطلاعات غلط یا گمراه کننده موجب آلوده شدن اطلاعات می‌شوند. آلودگی اطلاعات نیز موجب آلوده شدن جریان کار تصمیم‌گیری، مواد و محیط زیست می‌شود
Publication:	Iranian Journal of Information Science
Volume:	15
Number:	1&2
Pages:	pp. 3-8

The language in the 'Review' page for editor now is done with a plugin

Specific scripts and Paracite

Many specific scripts are no more useful so are not rewritten for EP3. The improved version of Paracite can be used in EP3 without modifications. In fact the cgi improved uses specific modules that do not need any change.
Only two scripts for massive purge are going to be rewritten for EP3.

Statistics

The SQL structures of Irstats and the EP2 statistic package done by University of Tasmania are compatible. The focus of E-LIS is on statistics about the single paper, but we want to use a standard tool. So we are working on use Irstats with EP3. We probably don't use the 'Dashboard' function but we will add direct link in the 'full' web page of every eprints.
