# solutions

- (a) persistent identifiers
- (b) duplicate detection
- (c) **fingerprints**

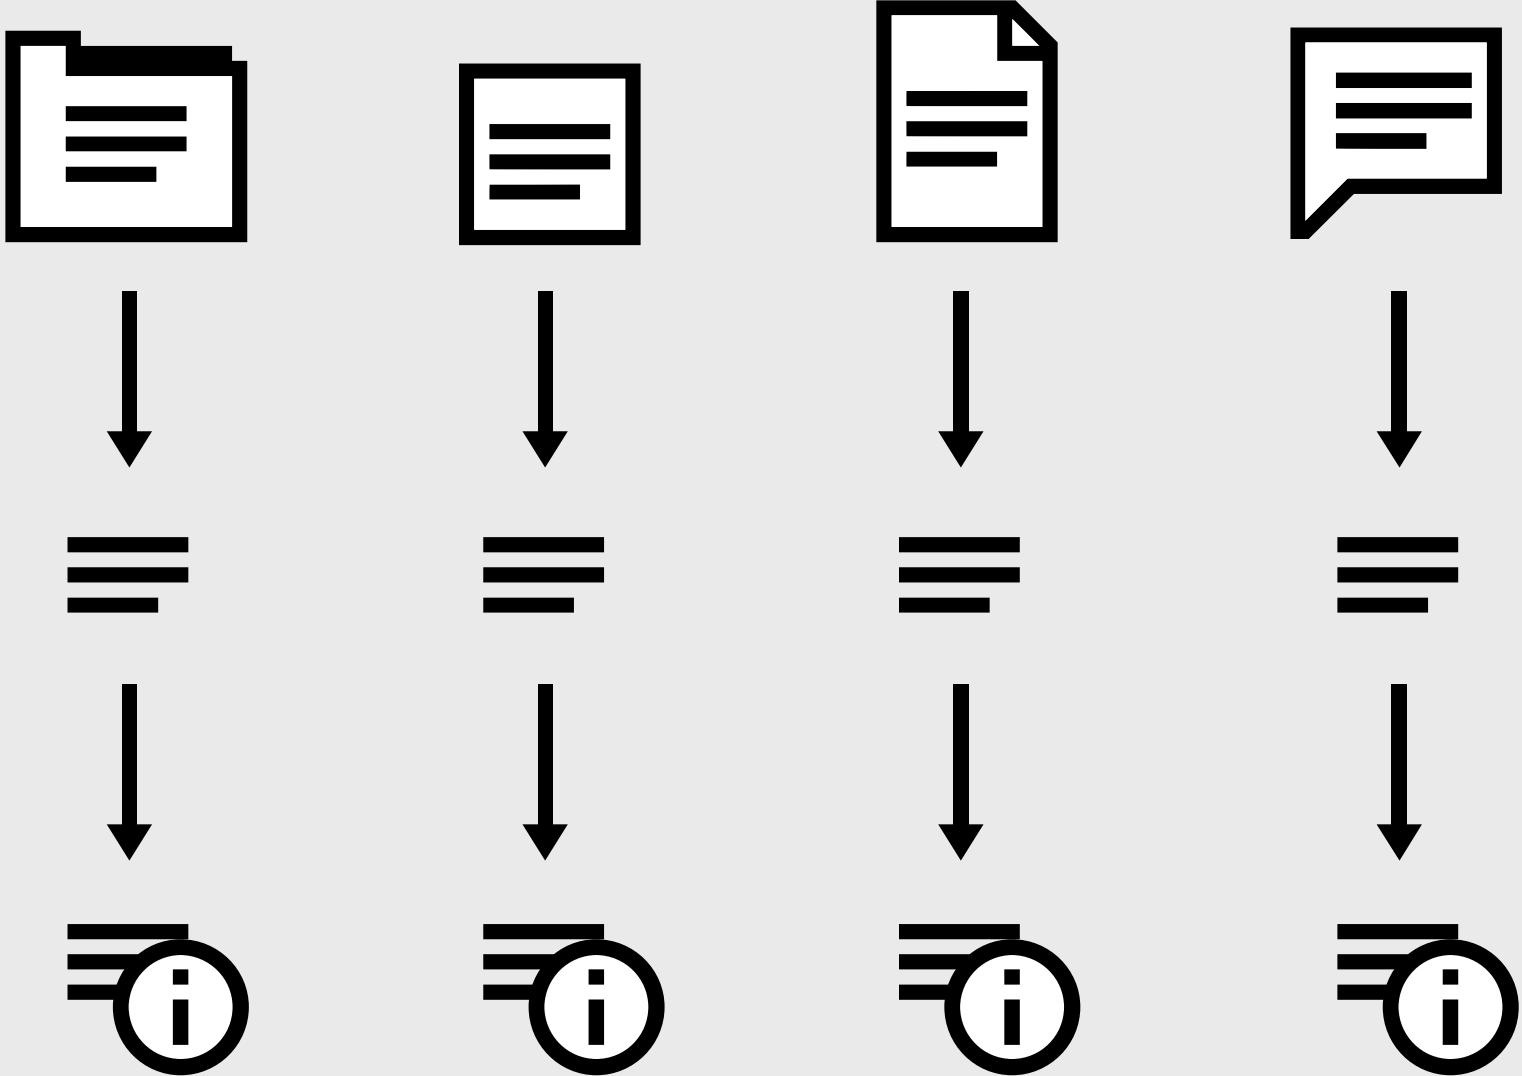

# persistent identifiers

# duplicate detection

# fingerprints (bibkey)

# specification of bibkey

1. selection of fields
2. normalization
3. concatenating
4. prefix and hashing

# selection of fields

# normalization

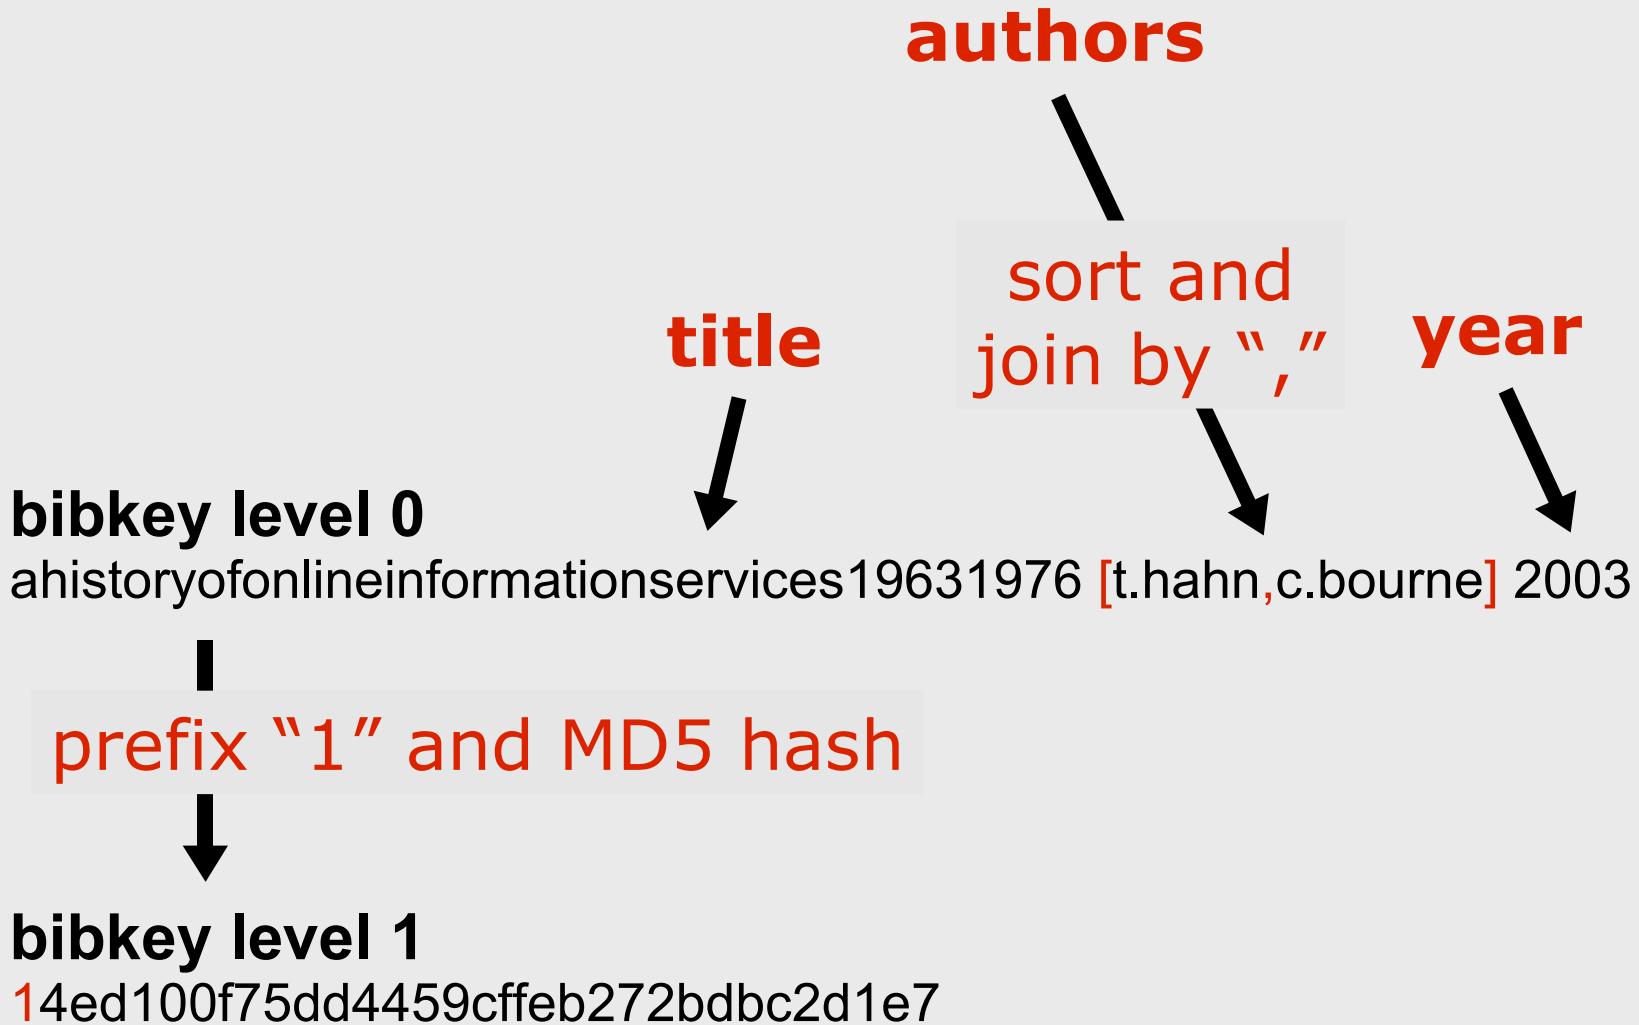

lowercase, letters, digits

Charles P. Bourne → c.bourne

Trudi Bellardo Hahn → t.hahn

unicode normalization form  
compatibility composition (NFKC)

# composing the hash

# usage in BibSonomy

bibkey

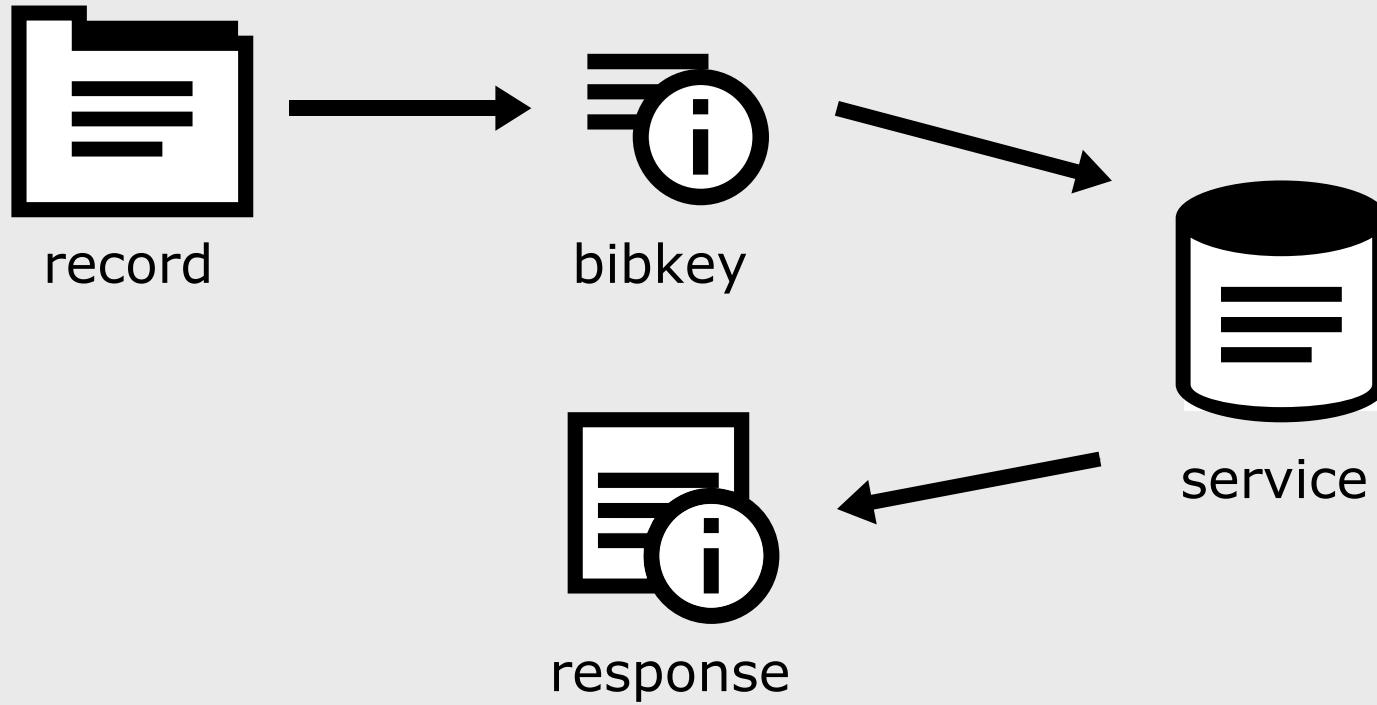

The screenshot shows a Mozilla Firefox browser window displaying the BibSonomy website. The URL in the address bar is highlighted with a red oval and labeled 'bibkey'. The page content includes:

- publications (5)**: A list of three publications under the heading "Detecting Communities via Simultaneous Clustering of Graphs and Folksonomies".
  - 1st entry: Akshay Java and Anupam Joshi and Tim Finin. *Proceedings of the Tenth Workshop on Web Mining and Web Usage Analysis (WebKDD) (2008)*. to 2008 clustering community detection folksonomy graph social-media by anneba on 2009-01-14 10:25:57 pick | copy | URL | BibTeX | OpenURL
  - 2nd entry: Akshay Java and Anupam Joshi and Tim Finin. *WebKDD 2008 Workshop on Web Mining and Web Usage Analysis (2008)*. to clustering detecting folksonomies graphs by nesty.nov on 2009-01-10 16:44:24 pick | copy | BibTeX | OpenURL
  - 3rd entry: Akshay Java and Anupam Joshi and Tim Finin. *WebKDD 2008 Workshop on Web Mining and Web Usage Analysis (2008)*. to clustering community detection by folke on 2009-01-07 07:06:51 pick | copy | BibTeX | OpenURL
- tags**: An aggregated tag cloud on the right side of the page.

Red annotations are present:

- A red curly brace on the left side groups the three publication entries under the heading "independent bibliographic records".
- A red curly brace on the right side groups the tag cloud under the heading "aggregated tag cloud".
- A red arrow points from the URL in the address bar to the word "bibkey".

# usage in web services

# challenges

- determining
  - all authors
  - the full title
  - the year
- problematic works
  - no authors
  - standard titles  
("Introduction", "News"...)
- unicode normalization
