Where are the libraries?

Each month:

- More than 1.7 million unique users
- 13 million page views
- 7 million full record views
- 750.000 clicks through to library services (OPAC, ILL, OpenURL, etc.)
- Of those visits, between 18-20.000 visits a month are coming from Spain;

**Five Most Desired Items Overall**

**Making electronic resources accessible from my home or office**

**Easy-to-use access tools that allow me to find things on my own**

**A library Web site enabling me to locate information on my own**

**Making information easily accessible for independent use**

**Print and/or electronic journal collections I require for my work**

- **The 'wild user' wants to use the library's collections:**
  - **At a distance from the library**
  - **Independently and self-sufficiently**

• **This is an international phenomenon**
