

A-B-C Board Game

Number of Players: 2 +

Instructions:

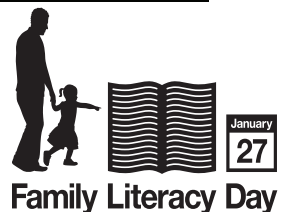

Print out the *A-B-C Board Game* and find some coins to use as game pieces. Players should use a different coin as their playing piece. Each player's coin should be placed on the letter "A" to start the game.

The goal of the game is to hop your coin from **A** to **Z** by answering one question chosen by your opponent from the *A-B-C Question Table*. The answer must contain a word or phrase that starts with the letter that the game piece is on. For example, if your game piece is on the letter **M** and the question is "Name something useful", the answer could be "map." Once the question is answered, advance forward as many steps as indicated by the *Number of Steps* column beside the appropriate question and then wait for your next turn. The youngest player starts first. The first one to get to the letter **Z** wins.

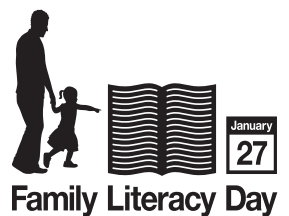

A-B-C Board Game – Question Table
