

# Gestores de referencias y citas bibliográficas

Universidad Tecnológica  
M e t r o p o l i t a n a  
Escuela de Bibliotecología  
Santiago, Chile, 12 de mayo de 2010.

**Adela I. Soto, MSc.**  
**[adela.soto@gmail.com](mailto:adela.soto@gmail.com)**

# Introducción

- Toda actividad profesional y de documentación requiere de **DOCUMENTARSE**
- La metodología es uno de los aspectos básicos en los resultados finales de cualquier trabajo de investigación

# Bibliografía en investigación

- contribuye a :
  - mejorar la credibilidad en el mismo
  - dar a conocer cuales han sido las fuentes que se han utilizado para su elaboración
  - nivel de actualización del trabajo
  - reconocer la tarea de otros profesionales que han contribuido a generar ese nuevo conocimiento

# Definición: Gestor de referencias bibliográficas (1)

- Son programas dedicados a manejar bases de datos de referencias bibliográficas, que añaden a esta función básica la versatilidad en los formatos de entrada y salida, de acuerdo con diferentes estilos de citación y la posibilidad de incluir las referencias en textos de artículos científicos

# Definición: Gestor de referencias bibliográficas (1)

- Programas que permiten crear, mantener, organizar y dar forma a referencias bibliográficas o citas de artículos de revista o libros; obtenidas de una o de varias bases de datos.

# Funciones básicas

- Entrada de datos
- Importación de datos
- Consulta y búsqueda
- Productos bibliográficos
- Biblioteca digital
- Control de Autoridades

# Gestores de Referencias

Los más conocidos son los comercializados por el Institute for Scientific Information) Thomson ISI ResearchSoft

- EndNote
- ProCite
- Reference Manager

# Comparación de Softwares

- Comparison of reference management software

[http://en.wikipedia.org/wiki/Comparison\\_of\\_reference\\_management\\_software](http://en.wikipedia.org/wiki/Comparison_of_reference_management_software)

- [Guía de Exigencias para los Manuscritos](#)
- [Declaración de la Responsabilidad de Auditoría](#)
- [Envío de manuscritos](#)

### Forma y preparación de manuscritos

A large yellow arrow with a black outline, pointing from the left towards the text.

Los trabajos enviados a la *Revista Médica de Chile* deberán ajustarse a las siguientes instrucciones, preparadas considerando el estilo y naturaleza de la Revista y los «Requisitos Uniformes para los Manuscritos Sometidos a Revistas Biomédicas», establecidos por el *International Committee of Medical Journal Editors*, actualizados en octubre de 2008 en el sitio WEB [www.icmje.org](http://www.icmje.org). Se dispone de la traducción al castellano de una versión previa en [www.wame.org](http://www.wame.org).

## Guidelines for Authors on Preparing Manuscripts

- ◆ General Policies
- ◆ Manuscript  
Submission
- ◆ Types of Articles
- ◆ Manuscript  
Organization and  
Format
- ◆ Processing of  
Accepted Manuscripts

## General Policies ◆

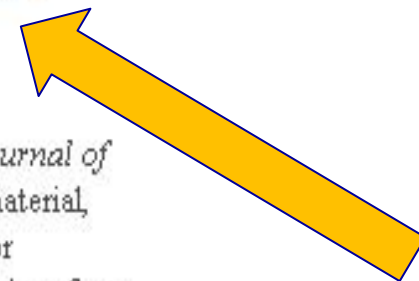

The requirements stated below are in accordance with the International Committee of Medical Journal Editors, of which *The American Journal of Psychiatry* is a member. See “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” at [icmje.org](http://icmje.org).

### PRIOR PUBLICATION

Manuscripts are accepted for consideration by *The American Journal of Psychiatry* with the understanding that they represent original material, have not been published previously, are not being considered for publication elsewhere, and have been approved by each author. Any form of publication other than an abstract of no more than 400 words constitutes prior publication. This includes components of symposia, proceedings, transactions, books (or chapters), invited articles, or reports of any kind, regardless of differences in readership, as well as electronic databases of a public nature. (Clinical trial registration does not constitute prior publication and will not preclude consideration for publication in the *Journal*.)

## APA Journals Manuscript Submission Instructions For All Authors

The following instructions pertain to all journals published by APA and the Educational Publishing Foundation (EPF).

Please also visit the web page for the journal to which you plan to submit your article for submission addresses, journal-specific instructions and exceptions.

### Manuscript Preparation

Prepare manuscripts according to the [Publication Manual of the American Psychological Association \(6th edition\)](#). Manuscripts may be copyedited for bias-free language (see Chapter 3 of the *Publication Manual*).

Double-space all copy. Other formatting instructions, as well as instructions on preparing tables, figures, references, metrics, and abstracts appear in the *Manual*.

If your manuscript was mask reviewed, please ensure that the final version for production includes a byline and full author note for typesetting.

Review APA's [Checklist for Manuscript Submission](#) before submitting your article.

## SLIM: an alternative Web interface for MEDLINE/PubMed searches – a preliminary study

Abstract

### Background

With the rapid growth of medical information and the pervasiveness of the Internet, online search and retrieval systems have become indispensable tools in medicine. (1) The progress of Web technologies can provide expert searching capabilities to non-expert information seekers. The objective of the project is to create an alternative search interface for MEDLINE/PubMed searches using JavaScript slider bars. SLIM, or Slider Interface for MEDLINE/PubMed searches, was developed with PHP and JavaScript. Interactive slider bars in the search form controlled search parameters such as limits, filters and MeSH terminologies. Connections to PubMed were done using the Entrez Programming Utilities (E-Utilities). Custom scripts were created to mimic the automatic term mapping process of Entrez. Page generation times for both local and remote connections were recorded.

1. Boulos MN, Maramba I, Wheeler S. Wikis, blogs and podcasts: a new generation of Web-based tools for virtual collaborative clinical practice and education. BMC Med Educ 2006;6:41.
