What is YouTube?

- YouTube is a video hosting service, at [www.youtube.com](http://www.youtube.com)
- Users can upload, share and view, and comment on videos
- It was created in February 2005, by Steve Chen, Chad Hurley and Jawed Karim
- In November 2006, bought by Google
- It uses Adobe Flash Video technology for user generated video and also movie clips
- Registered viewers can upload, everyone can view
- Potentially offensive can only be viewed by over 18.
Video Sharing

• Alexa rates Youtube 3rd, after Google and Facebook.

• May 2010, it was serving more than 2 billion videos a day.

YouTube Downloader Version 2.5.5
Software to download and convert YouTube video.

Breaking News

May 12 - Version 2.5.5 adds features (1080p support) and fixes bugs such as YouTube videos being downloaded as "Documents" rather than "mp4" or "flv" after YouTube changed on March 31.

What is YouTube Downloader?

YouTube Downloader is software that allows you to download videos from YouTube, Google Video, Yahoo Video, and many others and convert them to other video formats.

The program is easy to use, just specify the URL for the video you want to download and click the Ok button!

It also allows you to convert downloaded videos for iPod, iPhone, PEP, Cell Phone, Windows Media, Xvid and MP3.

You can use YouTube Downloader to download the videos of your choice from home, at the office or in school.

Download YouTube Downloader now and get started downloading your favorite videos from YouTube.
