

Authority framework in 1.6
and
CILEA's customization
for
The University of Hong Kong

Andrea Bollini *CILEA* 
Allen Lam *HKU* 
Susanna Mornati *CILEA* 
David Palmer *HKU* 

Flight Plan

David

- New design & customizations for HKU's IR
- The reason & funding wherefore
- Serendipitous discoveries

Andrea

- Authority Framework in 1.6
- Linkage between DSpace items, and author profiles
- Technical background of the RPs Project

The HKU Scholars Hub is the institutional repository of The University of Hong Kong. It seeks to collect the intellectual output of HKU and make it available to the widest possible audience. Records are made in the Hub for items that are fulltext [open access](#), or for URLs that hyperlink to the same.

We seek Knowledge Exchange with the World.

Quick search of The Hub

Search the author, title, abstract and series fields.

Title 40Ar/39Ar Constraints on a Temporal Link between Continental Margin Transension in the Jiaodong

Authors LI, JW; Vasconcelos, PM; Zhang, J; Zhou, MF; Zhang, XJ; Yang, FH

Keywords Earth sciences; Geology

Issue Date 2003

Publisher University of Chicago Press. The Journal's web http://www.journals.uchicago.edu/JG

Citation The Journal of Geology, 2003, v. 111 n. 6, p. 7

Abstract The Jiaodong gold province is the largest gold province in the world. It is spatially related to the crust developed along the Mesozoic continental margin incremental heating analyses of hydrothermal z (Jiaojia, Jincheng, and Wangershao) and igneous performed to establish a possible temporal link movement along the Tan-Lu fault zone. Magma concordant plateau ages between 124.5±0.4 Ma muscovite samples (a total of 30 single separate 121.0±0.4 Ma to 119.2±0.2 Ma (2). An integration other major gold deposits in Jiaodong demonstrate contemporaneous during a 23-m.yr. period, M associations with abundant mafic to intermediate 123.5±19.6 Ma, in excellent agreement with the 40Ar/39Ar ages, in combination with other independent granodioritic intrusions (130±26 Ma), volcanic rock strike-slip faults (132±20 Ma) in Jiaodong or adjacent mineralization postdated the granodioritic magma magmatism and volcanism, all controlled by the the Early Cretaceous

Why did we do it?

☞ Knowledge Transfer:

- “the systems and processes by which knowledge, including technology, know-how, expertise and skills are transferred between higher education institutions and society, leading to innovative, profitable or economic or social improvements”

☞ US\$6.5M/yr, divided by 8 Universities in Hong Kong

☞ At HKU

- Re-articulated Vision:
 - ♦ Teaching & Learning
 - ♦ Research
 - ♦ Knowledge Exchange (KE)
- KE includes,
 - ♦ Database of Visible Expertise to Enable & Measure KE
 - Metrics from citation databases
 - Research Output & Grants, etc.
 - Expanded OA Strategy

Serendipity

1) Online Reputation Management

- ❧ Internet Footprint
- ❧ Findability
- ❧ Identity exposure, disclosure
- ❧ Cybervetting
 - One bad apple...

2) Meanwhile,

☞ Reputation & identity of the institution:

- University rankings
- RAE
- Peer Review
- Parent's choice of school for child
- Recruiter's choice
- Media spokespersonship
- Collaborative partnerships
- Contract research undertaken
- Funding received
- Etc.

The Reputation of the University?

Increases

	Apr 2010	30 June 2010	Increase/Decrease
Scopus – Document Count	47,013	46,720	-0.62%
Scopus – Citation Count	484,679	493,641	1.85%
Scopus – <u>CoAuthor Count</u>	50,767	51,155	0.76%
Scopus – h index	8,165	8,281	1.42%
RID – Document Count	55,735	57,066	2.39%
RID – Citation Count	346,374	392,540	13.33%
RID – h index	4,892	5,210	6.5%

|

3) HK's Research Assessment Exercise

✎ UK:

- Research Excellence Framework (REF)

✎ Australia

- Excellence in Research for Australia (ERA)

4) For HKU, a trusted authority

- ✎ ORCID - Open Researcher & Contributor ID
 - Based upon ResearcherID
 - All authors & publishers to use
 - Citation databases; Scopus, WoS
 - June 2010
- ✎ BKNpeople – Bibliographic Knowledge Network People

5) Re-positioning the academic library

❧ OCLC Report

- Leverage value of IR in RAEs
- Provide a researcher-centred view
- Moving beyond putting books on shelves
- Aligned with institution's vision & mission

❧ Key Perspectives Ltd. "A comparative Review of Research Assessment Regimes in Five Countries and the Role of Libraries in the Research Assessment Process" (Report commissioned by OCLC Research), 2009.

<http://www.oclc.org/research/publications/library/2009/2009-09.pdf>.

6) Re-thinking the IR

❧ Moral and philosophical approaches have failed

And here, pilots switch in mid-stream

Authority Framework in DSpace 1.6

Technical details

- ❧ The Authority framework is one of the new major features of DSpace 1.6
- ❧ Main contribution & projectual idea by **Larry Stone**
- ❧ CILEA / HKU Project was an early adopter. For this we provided JSPUI & PostgreSQL porting, browse & search enhancement with support for variants names and forms

Authority Framework: responsibilities

- ❧ Bind metadata fields to an **Authority**
- ❧ Retrieve **matching values** from user queries / input
- ❧ Supply the standard form and variants for an **authority key**

Authority Framework: main classes

`org.dspace.content.authority`

`MetadataAuthorityManager`

Configuration

`ChoiceAuthorityManager`

Query

 Extensibility provided by:

`ChoiceAuthority`

How TO Query ? WS, SQL, ...

`AuthorityVariantsSupport`

Retrieve variants

Authority Framework: extension points

 org.dspace.content.authority
  ChoiceAuthority 5124
  getMatches(String, int, int, int, String) : Choices
  getBestMatch(String, int, String) : Choices
  getLabel(String, String) : String

 org.dspace.content.authority
  AuthorityVariantsSupport 4365
  getVariants(String, String) : List<String>

Authority Framework: which authorities?

- Library of Congress Personal names authority: **LCNameAuthority**
- Sherpa RoMEO Project, publisher names authority: **SRPublisherAuthority**
- Sherpa RoMEO Project, Journal titles authority: **SRJournalTitle**
- DSpace Input Form XML based controlled list: **DCInputAuthority**

Authority Framework: which authorities?

```
plugin.named.org.dspace.content.authority.ChoiceAuthority = \  
    org.dspace.content.authority.SampleAuthority = Sample, \  
    org.dspace.content.authority.LCNameAuthority = LCNameAuthority, \  
    org.dspace.content.authority.SHERPARoMEOPublisher = SRPublisher, \  
    org.dspace.content.authority.SHERPARoMEOJournalTitle = SRJournalTitle
```

```
## This ChoiceAuthority plugin is automatically configured with every  
## value-pairs element in input-forms.xml, namely:  
##     common_identifiers, common_types, common_iso_languages  
plugin.selfnamed.org.dspace.content.authority.ChoiceAuthority = \  
    org.dspace.content.authority.DCInputAuthority
```

Changes to the Data Model

☞ Two new fields for the MetadataValue class: authority & confidence

```
CREATE TABLE MetadataValue
(
  metadata_value_id  INTEGER PRIMARY KEY DEFAULT NEXTVAL('metadatavalue_seq'),
  item_id            INTEGER REFERENCES Item(item_id),
  metadata_field_id  INTEGER REFERENCES MetadataFieldRegistry(metadata_field_id),
  text_value         TEXT,
  text_lang          VARCHAR(24),
  place              INTEGER,
  authority           VARCHAR(100),
  confidence          INTEGER DEFAULT -1
);
```

Added fields in DSpace 1.6

Authority Framework: settings

Interactive settings

```
choices.plugin.dc.contributor.author = LCNameAuthority  
choices.presentation.dc.contributor.author = lookup | suggest | select  
choices.closed.dc.contributor.author = false
```

General settings – model constraints

```
authority.controlled.dc.contributor.author = true  
authority.required.dc.contributor.author = false  
authority.minconfidence.dc.contributor.author = accepted *  
  
authority.minconfidence = ambiguous *
```

* More on this later

Authority Framework: UI lookup

Pop-up windows

The image shows a web interface for describing an item in a digital repository. The main form is titled 'Describe Item' and contains several input fields. A yellow arrow points from the 'Authors:' label to the 'Last name' field, which contains 'Twain'. Another yellow arrow points from the 'Look up & Add' button to the same button. A third yellow arrow points from the 'Date of Issue:' label to the 'Year' field, which contains '1835'. A fourth yellow arrow points from the 'Add' button in the pop-up window to the 'Add' button in the main form.

Describe Item

Authors:
Last name, e.g. *Smith* First name(s) + " Jr " e.g. *Donald, Jr.*

Enter the names of the authors of this item below.

Title:
Enter the main title of the item.

Other Titles:
If the item has any alternative titles, please enter them below.

Date of Issue:
Year Month Day
Please give the date of previous publication or publication out the day and/or month if they aren't applicable.

Embargo Lift Date (if any):
If your work needs to be embargoed (temporarily withheld from public view), please enter the date it should be publicly released (format: YYYY-MM-DD). If not applicable, enter "forever".

Publisher:
Enter the name of the publisher of the previously issued work.

Citation:
Enter the standard citation for the previously issued work.

Series/Report No.:

LC Name Authority author lookup

Results 1 to 7 of 7 for "Twain, Mark"

- Clemens, Olivia Langdon, 1845-1904
- Clemens, Samuel Langhorne, 1835-1910
- Conte, Louis de, 1835-1910
- Snodgrass, Quintus Curtius, 1835-1910
- Twain, Mark, 1835-1910**
- Twain, Mark, 1835-1910
- Local value "Twain, Mark" (not in Naming Authority)

Last name, e.g. "Smith" First name(s) e.g. "Fred"

Authority Framework: UI lookup

An icon show metadata value bind to an authority key

Describe Item

Authors:

Last name, e.g. *Smith*

First name(s) + "Jr", e.g. *Donald Jr*

Enter the names of the authors of this item below.

☐ Twain, Mark, 1835-1910

Enter the series and number assigned to this item by your community.

Authority Framework: UI conclusion

- ❧ For a short authority list a simple **html select** widget can be used
- ❧ The input facility is available also in the **edit item page**
- ❧ All the widgets are available in **both UIs: JSPUI and XMLUI**

Authority Framework: UI conclusion

Authority Framework: XML response

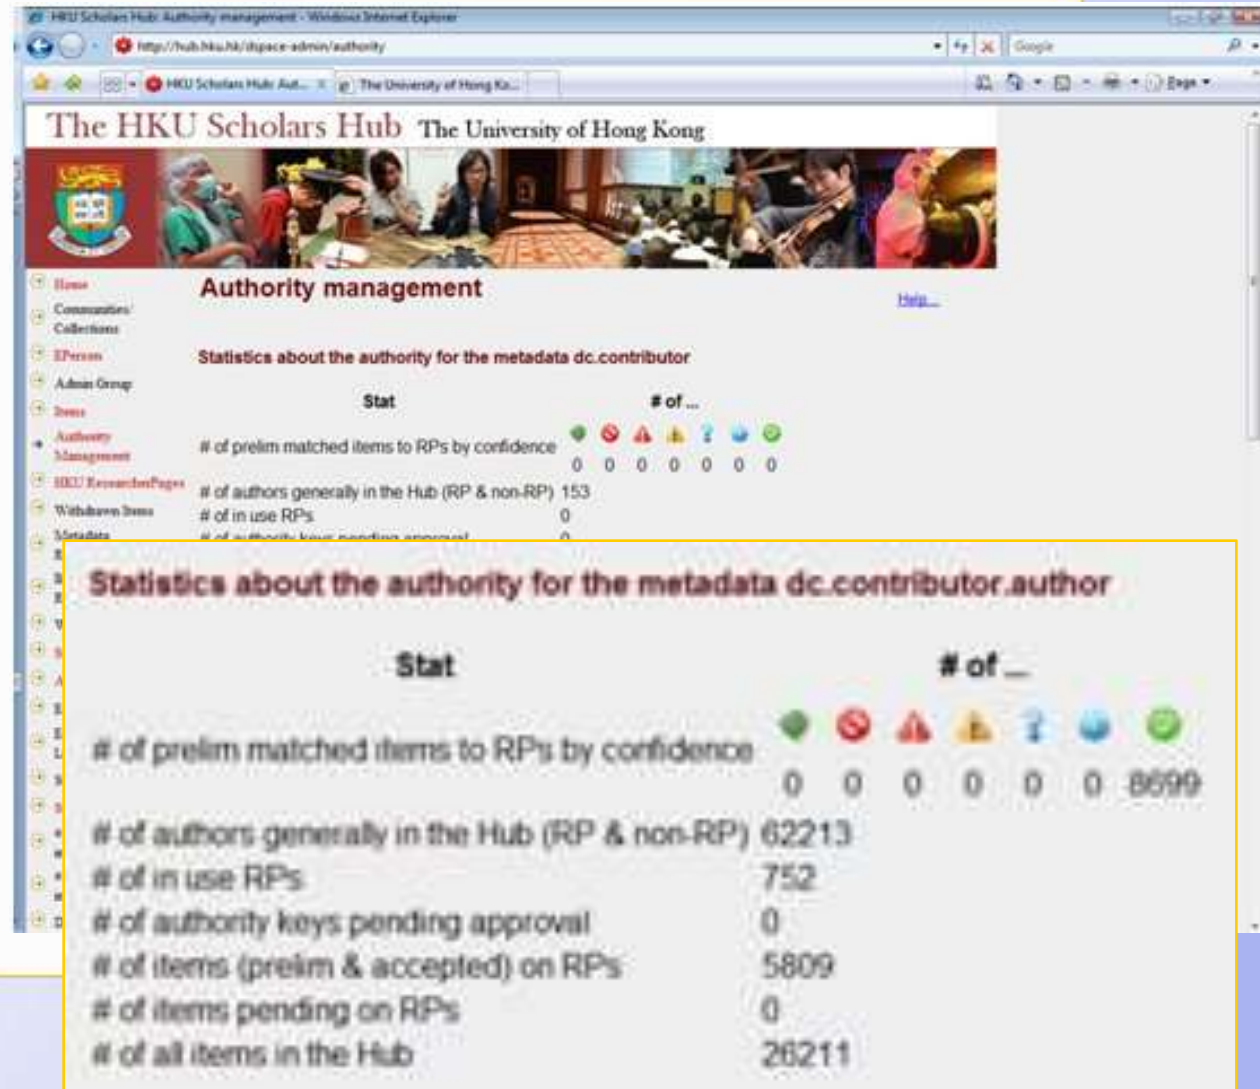

- ❧ The html widget are build on standard AJAX XML response
- ❧ Developers can easily extend or build new widget reusing existing infrastructure

```
<select xmlns="http://www.w3.org/1999/xhtml" start="0" total="6">
  <option authority="n 89103996" value="Clemens, Olivia Langdon, 1845-1904">
    Clemens, Olivia Langdon, 1845-1904
  </option>
  <option authority="n 93099439" value="Clemens, Samuel Langhorne, 1835-1910">
    Clemens, Samuel Langhorne, 1835-1910
  </option>
  <option authority="no2003079632" value="Conte, Louis de, 1835-1910">
    Conte, Louis de, 1835-1910
  </option>
  <option authority="n 93099461" value="Snodgrass, Quintus Curtius, 1835-1910">
    Snodgrass, Quintus Curtius, 1835-1910
  </option>
  <option authority="n 82045653" value="Twain, Mark, 1835-1910">
    Twain, Mark, 1835-1910
  </option>
  <option authority="n 79021164" value="Twain, Mark, 1835-1910">
    Twain, Mark, 1835-1910
  </option>
</select>
```

Keep the metadata clean

- ❧ New administrative tool to:
 - Check authority usage
 - Review, reject, or confirm automatic linkage
- ❧ Plan to release this functionality to the community after the HKU Scholars Hub migration to DSpace 1.6

Tentative matches for RP rp00857

[Help...](#)

RP Details

Label: He, Hongming
 Authority key: rp00857
 Variants: He, Hongming; He, H; 何洪鳴;
 Department: Dept of Geography;

Researcher interests:

1. Climate change impacts on human demensions
2. Water resources sciences, specialized in hydrological modelling
3. Urbanization process
4. Environmental modelling

Items awaiting Accept/Reject

ResearcherPage technology

☞ Spring IoC & AoP (TxManager)

☞ Hibernate & Hibernate Search

☞ Spring MVC

... some tricks/tips to use Spring DI in the Authority
Plugin in the next slides

Integration authority framework to HUB

`it.cilea.hku.authority.dspace.HKUAuthority`
implements

`ChoiceAuthority,`
`AuthorityVariantsSupport,`
`NotifiableAuthority`

Keep static references to the RP
“services” (persistence + search),
injected by Spring

Integration

- ❧ Dependencies Injection with Spring on classes managed by the DSpace plugin system needs a workaround :
 - Use static fields and semaphore/init method to assure proper initialization both in web and batch contexts (Our approach for the RP Project)
 - Expose and retrieve the Spring context as JMXBean: use the Spring API to retrieve dependencies (DSpace services approach)

Integration of RP presentation

- ❧ Servlet filter on the browse url to make HTTP redirect to the RP
 - No changes in dspace jsp tags
 - No changes in browse pages
 - Simple turnoff of ResearcherPage without loss of the metadata quality
 - Low overhead for no rp browsing
- ❧ Integration with the HKU SSO, the netID as bridge between DSpace Eperson & RPs
