#PublicaSalutIB: Dissemination of biomedical production of the Balearic Islands in the social networking of Bibliosalut.

Elena Pastor-Ramon, Virgili Páez, Silvia Sastre-Suárez.
Virtual Health Sciences Library of the Balearic Islands. Balearic Local Health Authority, Palma de Mallorca Spain. epastor@bibliosalut.com

The main objective of any library is to provide access to information for their users. Since 2012 Bibliosalut has aimed to disseminate the research production of the Public Health System of the Balearic Islands and this is why we created the hashtag...

How do we detect published articles?

CINAHL
Embase.com
PubMed
Web of Science

Searches also performed manually in databases that do not have the option of RSS

CuidenPlus, Ibees and Psicodoc

Where do we disseminate these articles?

We send an email to the authors to inform them that the dissemination has been made

Nearly 700 articles have been disseminated since 2012

This service improves the user-library relationship as the author knows the usefulness of this work and it gives visibility to our researcher’s work.

14th EAHIL 2014 Conference 11-13 June, Rome, Italy
