Link Collection on Online Dissertations

At this page You will find a collection of useful links on different subjects related to online theses and dissertations (ETD), including metadata and format issues. Of course, all those links only represent a small choice of the various international resources currently available. To maintain a certain degree of clarity, individual projects in the majority of cases are only mentioned when located in Germany.

1. Metadata

Metadata standard of the NDLTD (Networked Digital Library of Theses and Dissertations)

<http://www.ndltd.org/standards/metadata/>

New metadata set "XMetaDiss" (XML standard) of Die Deutsche Bibliothek for electronic dissertations, in productive use from 2005 (Reference description)

http://www.ddb.de/standards/xmetadiss/ref_xmetadiss_v1-2_e.pdf

Metadata set "MetaDiss" (HTML 4.0 standard) of Die Deutsche Bibliothek for electronic dissertations

<http://deposit.ddb.de/metadiss.htm>

Homepage of the Dublin Core Metadata Initiative (DCMI) <http://dublincore.org/>

“Electronic Publishing Group”

DINI – Certificate

Document and Publication Repositories

DINI and Open Access

DINI certified repositories combine

- The ‘green’ road as part of the institutional self archiving policies.
- The ‘golden’ road as part of the institutional repository policy .

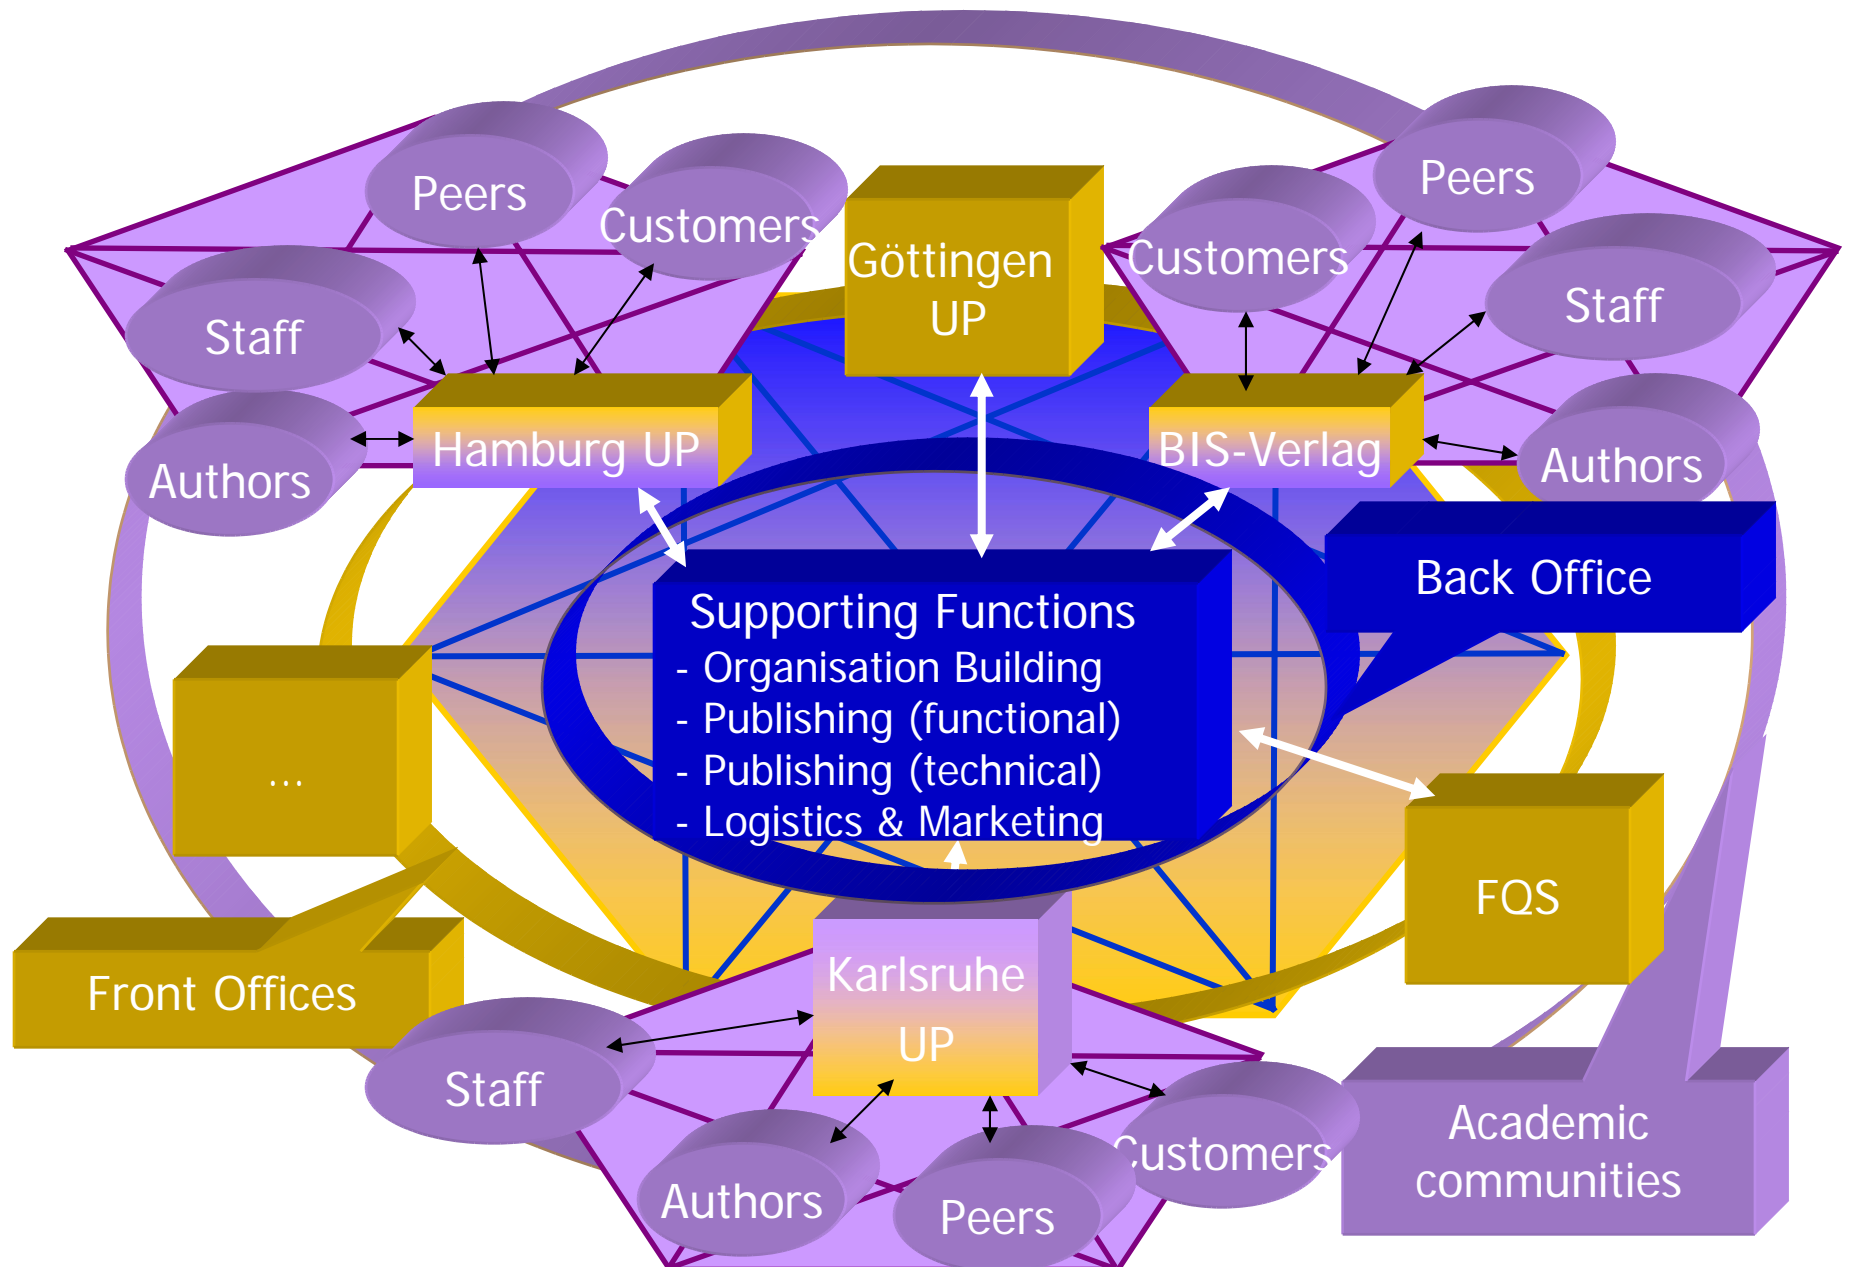

DINI certified repositories will become part of German Academic Publishers (GAP – <http://www.gap-c.de>) the academic Open Access publishing framework

DINI and GAP will cooperate facilitating ‘green’ and ‘gold’ respectively

University presses in Germany

- Technische Universität Berlin
