Summary

- Introduction
- Objectives and general principles
- Architecture
 - Log Processor
 - Data Model
 - Stats Processor
- Future work

University of Minho

- Created in 1974
- Two main campus in two different towns (Braga and Guimarães)
- +13 500 undergraduate students
- +1 500 graduate students
- 1 116 FTE academic staff (teachers and researchers)
- 11 Schools/Institutes
- 30 Research Centers

RepositóriUM

- Building an I.R. was defined as a strategic objective in 2003
- The I.R. was included in the University proposal to the national Program E-U Campus Virtual, was approved and integrated E-UM (the University of Minho project)  
- After a review of available systems, DSpace was chosen to implement the I.R.
- RepositóriUM was publicly released on the 20th November 2003.

Evolution of RepositóriUM

- The evolution of RepositóriUM in the 1st semester of 2004 was slower than expected.
- Strategy defined:
 - Communication plan and promotion of RepositóriUM inside and outside Minho University
 - Active participation in the international community related with Open Access, IR's and DSpace
 - Definition of institutional policy requiring self-archiving in the IR (Defined in December 2004, applied in 2005)
 - Development of value added services for authors and their communities
 - Statistics
 - Bibliographical lists, reports, etc.

Evolution of RepositóriUM

	December 2004	December 2005	April 2006
N. ^o communities	7	33	34*
N. ^o documents	626	3105	3852
N. ^o registered users	717	2410	2844

* 4 New communities in process of adhesion

Aims of RepositóriUM statistics

- Promote RepositóriUM by showing its significant usage
- Promote author self-archiving/deposit in the IR by
 - Demonstrating the usage (access/downloads) of archived documents
 - Demonstrating the worldwide accessibility of archived documents
- Provide usage, content and administrative statistics to IR and community/collection administrators or coordinators

General principles

- Based on ANU software
- Real time statistics
- Data stored in database
- Customizable queries
- Customizable web interface
- Customizable access policies

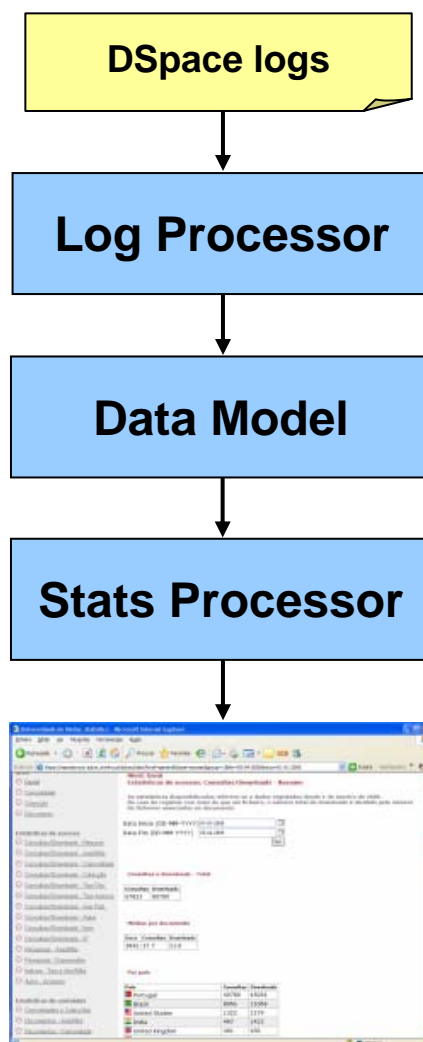

Requirements

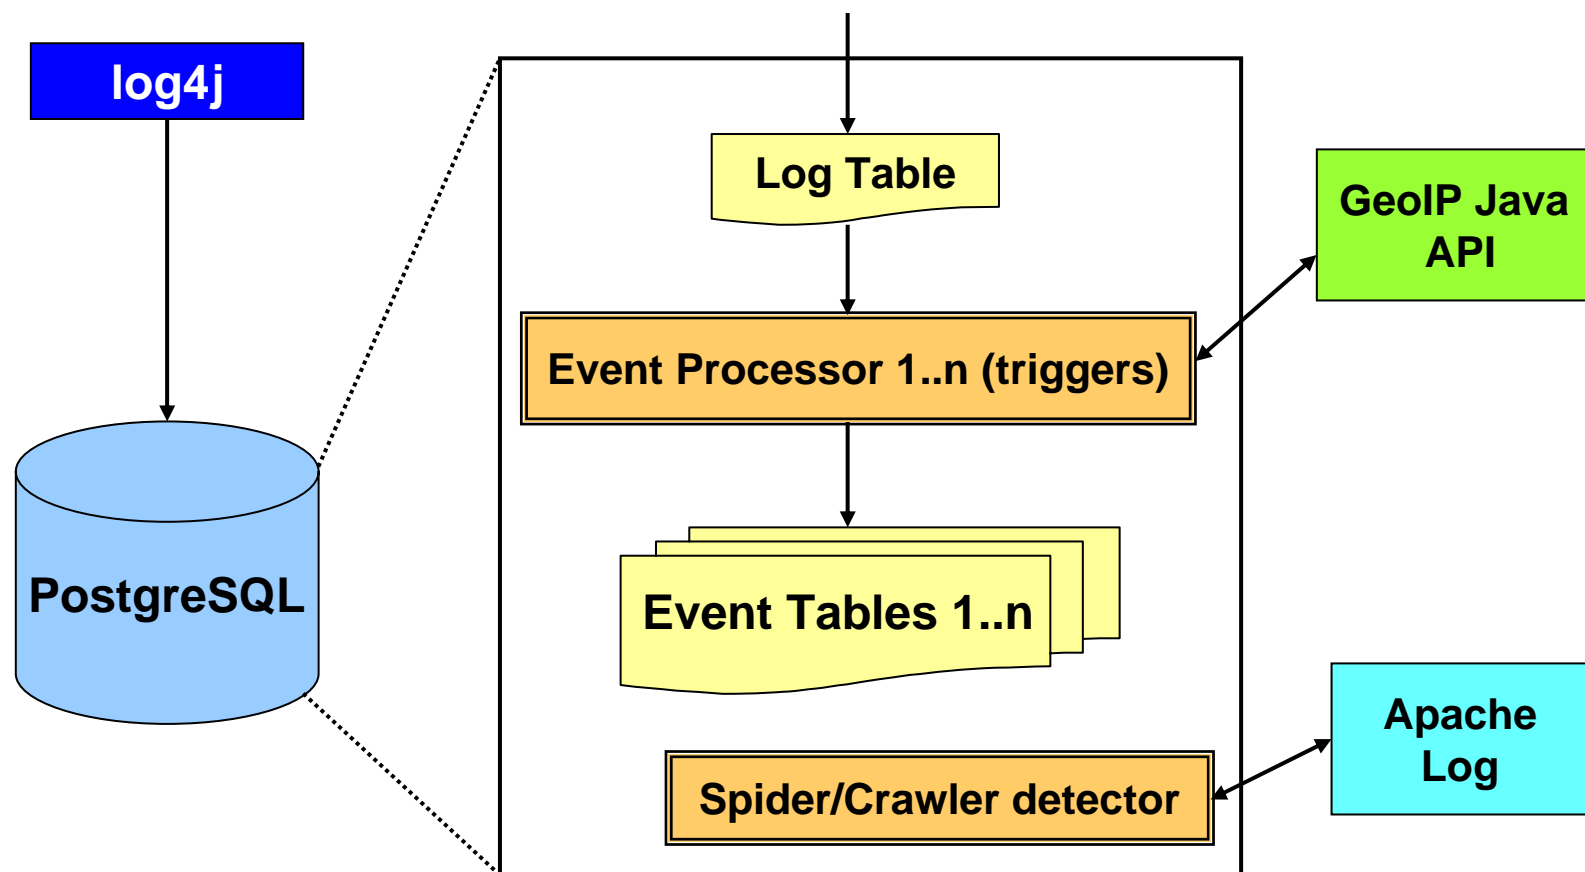

- DSpace 1.3.x
- MaxMind GeoLite Country (free)
- MaxMind GeoIP Java API (free)
- Apache combined log format

Overall architecture

Log Processor

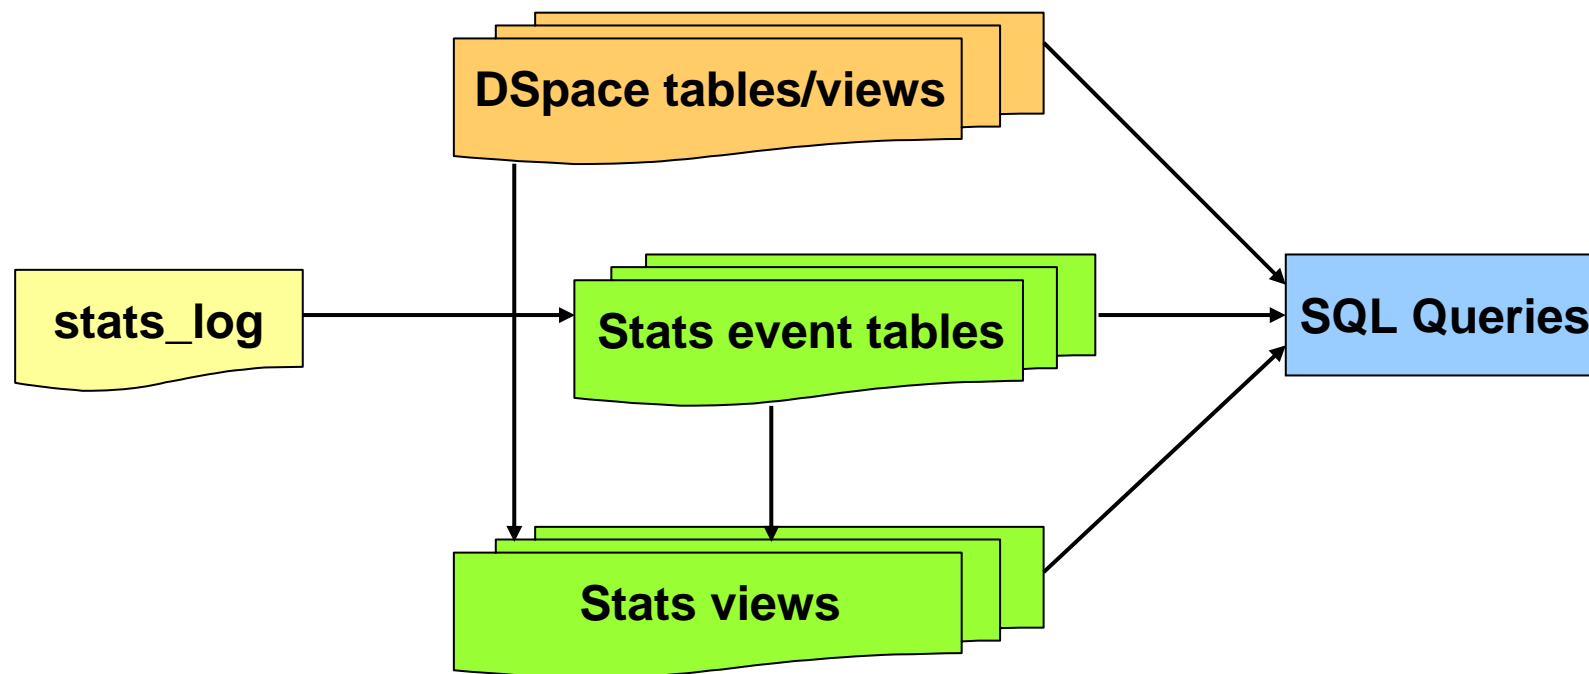

Log Processor

- Log events we are currently processing
 - view_item, view_bitstream
 - search, browse
 - start_workflow, advance_workflow, claim_task
 - login
- Other events can be processed

Data Model

Query model

- Organized by Type of Statistic
 - Access
 - Content
 - Administrative

- and aggregation level
 - Global
 - Community
 - Collection
 - Item

Query model

- Queries are configured in XML
- Query Groups
 - Definition of groups of queries based on type of statistic and aggregation level
- SQL Query
 - Individual sql query definition. Each query can be used in more than one group
- Model is used to build the navigational component of the web interface

Query model

■ Groups

```
...  
<group type="access" level="community" accessGroups="1" name="Views/Downloads">  
  <querys name="view-down-community" display-type="html"/>  
  <querys name="view-down-average-community" display-type="html"/>  
</group>
```

....

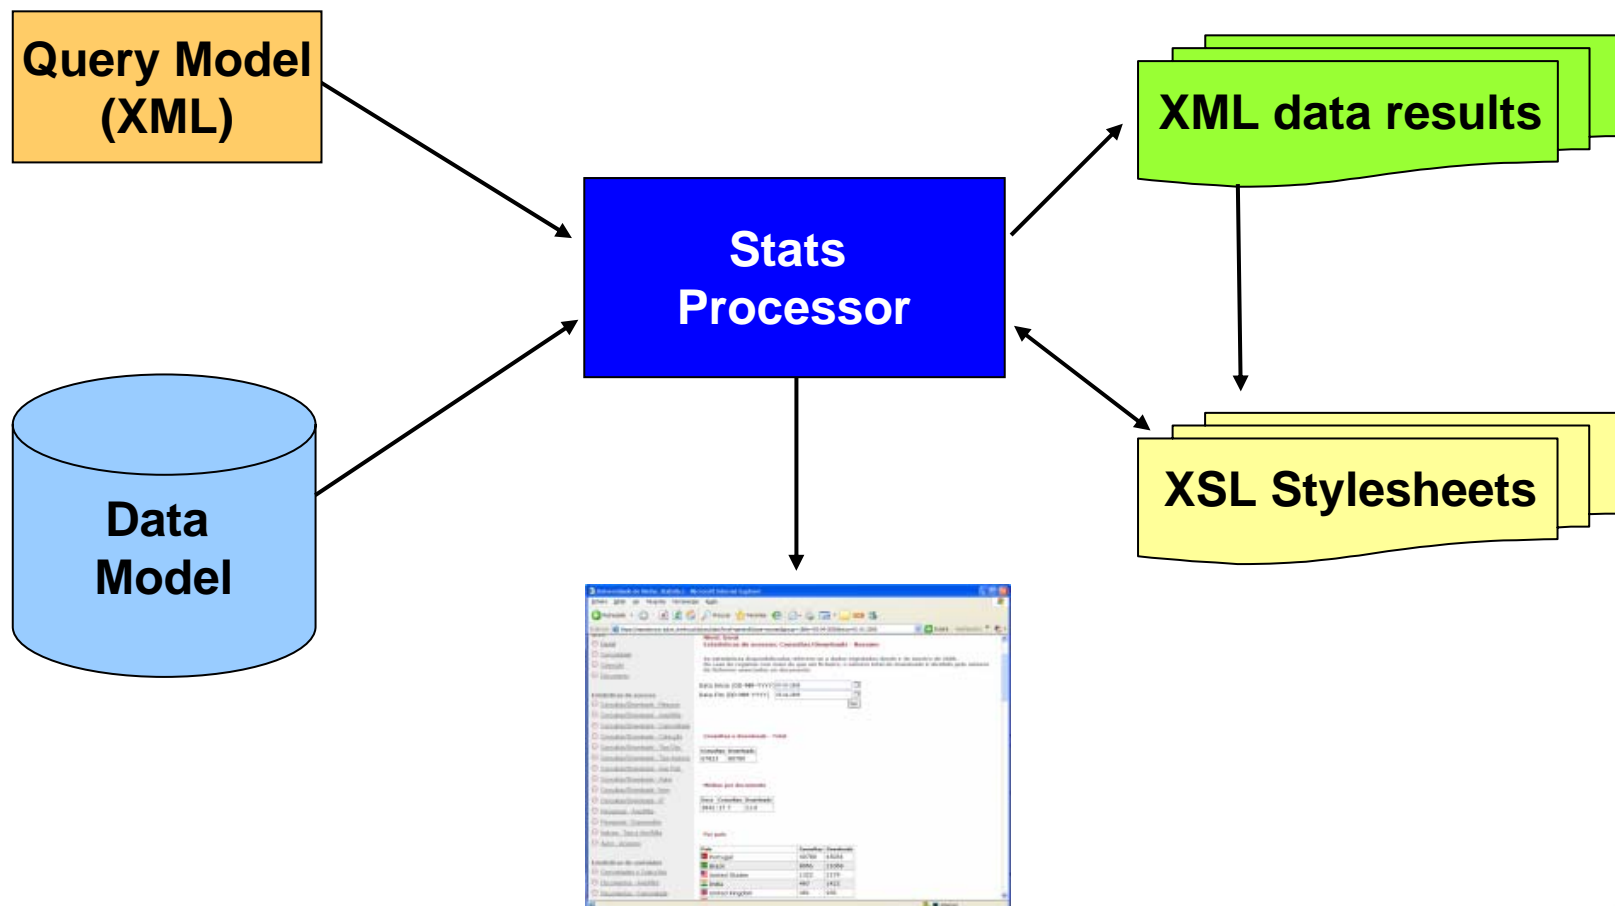

■ SQL Query

```
...  
<query name="view-down-community" title="Consultas e downloads - Total">  
  <option name="use-xsl-transform" type="html" stylesheet="resultset2table.xsl" render-to="table"/>  
  <option name="use-xsl-transform" type="xml" stylesheet="identity.xsl" render-to="xml  
document"/>  
  <param src="communitylist" name="Community" id="object-id"/>  
  <param name="Start Date (DD-MM-YYYY)" id="inicio"/>  
  <param name="End Date (DD-MM-YYYY)" id="fim"/>  
  <sql> select views as "Views" from .... </sql>  
</query>
```

....

Estadísticas de conteúdos

- Comunidades e Colecções
- Documentos - Ano/Mês

Nível: Geral
Estadísticas de acessos: Consultas/Downloads - Resumo

As estatísticas disponibilizadas referem-se a dados registados desde 1 de Janeiro de 2006. No caso de registos com mais do que um ficheiro, o número total de downloads é dividido pelo número de ficheiros associados ao documento.

Data Início (DD-MM-YYYY) 01-01-2006
Data Fim (DD-MM-YYYY) 06-04-2006 Ver

Consultas e downloads - Total

Consultas	Downloads
68663	82060

Médias por documento

Docs	Consultas	Downloads
3844	17.9	21.3

Por país

País	Consultas	Downloads
Portugal	50359	45722
Brazil	9110	21440

Future Work

- Improve navigational component
 - Navigational side bar
 - Navigation between queries
- Improve web look and feel
 - Improve XSL stylesheets
 - Develop Chart XSL stylesheets
 - Develop XSL stylesheets (Excel, Pdf)
- Extend log processor
 - Develop additional event processors
 - Develop additional SQL queries
